## Ship in Collision Landed People But Other Ship Missing

New Zealand-Bound Liner Limped Back to Portland From Region of the Lizard; Small Boats Found No Trace of the Other Vessel.

Plymouth, Eng., July 21.—The British steamship Remuera, bound for New Zealand via the Panama Canal with 544 passengers, including William E. (Pussyfoot) Johnson, collided last even-ing during a fog with an unidentified vessel near the Lizard.

An S. O. S. call was sent out, but later the Remuera announced

she was returning to Portland. Her lifeboats had been out all night vainly searching for traces of the other vessel.

Tugs which picked up the Remuera twenty miles from Portland

found her damaged in three of her holds. Her pumps controlled the water, however, and the liner reached Portland under her own

The liner, an 11,000-ton vessel, could not make a pier at Port land, however, and she was beached on the mud flats. The passengers were all landed.

Welcomed by Officials and Will Leave Dutch Capital Sun-

Vancouver, July 21.—Vancouver citizens to-day gave Baron Byng of Vimy, Governor-General, and Lady Byng, an enthusiastic welcome to the city on their arrival here this aftermoon. The city was en fete for the Governor-General's reception and thousands of citizens lined the flag-bedecked streets as the party was driven to the courthouse square for the official welcome.

Mayor Tisdall, members of the City Council and military officers welcomed Lord and Lady Byng when their train drew into the C. P. R. station at 2.30 o'clock. After inspecting the guard of honor composed of members of the Royal Canadian Mounted Police, Lord Byng was easorted to the courthouse where he was presented with an address of welcome by Mayor Tisdall on behalf of the city. Officials of public bodies were presented and hundreds of school children sang patrictic songs.

The observation is made, however, that the scheme is of so recent date that there has as yet hardly been time to give it the necessary consideration. It is pointed out that is the recent conferences between Markey and the conference of the consideration. It is pointed out that in the recent conferences between Mr. Stewart and the authorities of the Western provinces, the necessity for full co-operation between the Dominion and the provinces in the matter of immigration was frankly recognized, and that in pursuance of this policy it is unlikely the Federal Government will gmbark on any scheme of settlement in Canada without first consulting the provinces.

Warning notes to this effect pervade culogistic editorial references to the rew Empire Settlement Schema, the significance of which, as an organized effort, it is widely agreed cannot be exaggerated.

Hanna's Attitude.

Toronto, July 21.—D. B. Hanna, president of the Canadian National Railway Board, which resigned in a body yesterday, was questioned to-day respecting Premier King's opposition to the so-called "Hanna order."

"The order in question." said Mr. Hanna, 'is an order forbidding any employee of the National Railways from running for Parliament or accepting nomination. It is not directed against the wage-earning employee. In particular it applies to everyone right down to the lowest officials. The two men who ran for the Legislature of Manitoba knew they were violating this order, and automatically were forced out of the service. The order was in accordance with our whole policy of leaving politics out of the business of the National Railways."

No Change.

"What effect will the Premier's opeosition have on the Hanna order."

"What effect will the Premier's opposition have on the Hanna order?" he was asked.
"The order still stands," said Mr. Hanna emphatically. "I have received no word from the Premier, and I am not going to change the order at present. The Government has never interfered with the railway board, and we have always had a gree hand so far."

London, July 21.—(Canadian Press Cable)—Eulogistic reference to the potentialities of teachers in preserving and consolidating the Empire were made at a reception last night to teachers visiting Great Britain from the Dominions.

President Cove, of the National Union of Teachers, predicted that with the spirit of common brotherhood they had become a greater forethan the statesmen—in fact, the greatest force in the world for maintaining peace.

greatest force in the world for main-taining peace.

Right Hon. L. C. Amery, Secretary to the Board of Admiralty, gave the guests a warm welcome because, he said, the Government realized the importance of what the teachers were doing. "If we could make the position and care of teachers Em-pire-wide," he said, "we could do much more for the preservation of the Empire than any law or act of Parliament can do."

Plan to Meet U. S. Bill for Rhineland Occupation

Paris, July 21.—The American Government would receive its quota of German dyes, arbounting to more than \$2,000,000 annually, as part payment for maintaining its army on the Rhine, under the terms of a plan which now is being worked out by the American Government with the aid of the Reparations Commission. All that remains to put the plan into effect is the final approval of some of the Allied Powers. This approval is expected within several weeks. The Reparations Commission regards the plan as a successful solution of how the United States is to be paid for keeping its forces on the Rhine and it is indicated the American Government has endorsed the plan.

Interesting Address by Minister of Education

Sir William Schooling Also Speaks

MacLean, Minister of Education, and Dr. Putman, a prominent educationalist from Ottawa, were notable in a prominent list of guests entertained by the Victoria and District Tasobers' Association at a banquet held in the Dominion Hotel last night. T. W. Cornett, head of the association presided, nearly 100 being present. Ladies formed the majority of those present at the re-union.

In a brief address the Hon. J. D. MacLean expressed the sincere appreciation of himself and his Department generally, in the efficient and excellent work of the members of the teaching staffs of the Province.

welcome.

One of the most interesting addresses of many during the evening was that delivered by Dr. Putman, who in the course of a humorous discourse made an eloquent plea for the retention, and expansion, of the so-called "fads and frills."

Sackbone—Not Fade.

Fads and frills, held the speaker, including as they did manual training, domestic science, nature study, physical training, and other phases of more modern instruction, were the backbone of the educational system, and the saving of that curriculum, which if supported by the "three R's" slone, would not meet the needs of the city-bred children of to-day.

School was a socializing institution and needs must conform to the changing status of civilization, as year rolled on year, continued the speaker. The children of fifty years ago lived, in the main, in the country and secured in their own homes the experience that city bred children must acquire in other methods.

The general concentration of the bulk of population into cities brought about a change in teaching to meet the changing requirements of the children, and the so-called fads and frills were a sympton of that change.

No Fault at Base.

### No Fault at Base.

The fault in the present day educa-tional system, if there were one, might lie in a failure to inquire more close-ly into the methods of instruction, rather than the basis of that teach-

rather than the "R's" were being put in their proper place, as mere incidents of that training, emphasized the speaker, who cited how the city of Ottawa had purchased an are in the centre of the city to establish a school garden, where annually 1,500.

in the centre of the city to establish a school garden, where annually 1,500 children learn something of the laws of nature.

That the introduction of the fads and frills did not mean the elimination of the essential book lore, but rather gave access to a wise co-ordination of both viewpoints, was the concluding contention of Dr. Putman, who was applauded heartily.

# ORDERS TANKER

Bethlehem Corporation to Build 2,500-ton Carrier Coastwise Trade

San Francisco, July 21.—The Standard Oil Company has placed an order for a 2,500 deadweight ton tanker with the Union plant of the Bethlehem Shipbulding Corporation. The ship is to be of special type for coastive service, 250 long and equipped with oil motors and electric drive. Captain C. A. McAllister, vice-president of the American Bureau of Shipping, pointed out that ships of this type were in the majority in the few ship construction—jobs recently undertaken. He called attention to the fact that the trial development of the lectric drive was carried on by the United States Navy, all of whose new vessels are so equipped.

David Walter Raser, vice-president of the firm of Sudden & Christensen, cled yesterday at the hotel where he made his home. He was a well-known figure in Pacific Coast shipping circles. He started as office buy with Sudden & Christensen, and at the time of his death was in charge of the firm's affairs. He was forty two years old.

Seattle. July 21.—The steamship Hakata Maru, of the Nippon Yusen Kaisha service, will reach William Head Saturday night and after calling at Vancouver Sunday will dock in Seattle Monday, according to an announcement at the local offices of the company to-day. She has a good sized cargo for local discharge.

The freighter Derblay is en route north with 3,000 tons of ore from Chilian ports for the Tacoma smelter and will reach Tacoma early next week. It will be her last voyage in the service of the General Steamship Company, as she is to be turned back to the Shipping Board and will likely be tied up on Lake Union.

Examination of the Isthmian line freighter Mobile City, which went ashore on Protection Island Sunday, has been concluded and her hull is reported undamaged. The vessel stranded on a sandy beach and her plates were not injured. The liner will commence loading outward at once and will proceed to Vancouver to-day, returning later to Bellingham and Tacoma. Her destination is Baltimore, New York and Boston and a full cargo has been booked.

# **GREAT SUCCESS**

Automotive Dealers Provide Excellent Outing

The monster picnic held at Deep Bay yesterday by the Victoria Automotive Dealers proved to be the biggest success of the season and a record breaker for automobile attendance. There was no less than 250 motor cars parked near the grounds and, taking an average of five people to the car, there must have been easily, over 1,200 persons present. Considering that this was representative of only one line of industry in the city the showing was an exceptional one.

A splendid programme of sporting events was carried out and R. E. Mc-Morran was complimented by his many friends for having conceived the idea of holding such an annual af fair. The various committees worked hard and everything went off smoothly. The picnic was thoroughly enjoyed by all who attended, and it was nearly midnight before the majority of the party returned to the city.

Three baseball games were played

the excellent choice of prizes, an or which were of considerable value. The automotive men are particularly grateful for the B. C. Electric Railway Company, which generously loaned the grounds for the occasion Mrs. Cresswell at the Deep Bay Chalet and her stall also did everything possible to make the visitore comfortable.

The greasy pig were two events which created a great deal of interest. George Simpson of the Canadian Fairbanks Morse Company and Billy Hewer were close contestants in the greasy pole event, the former winning the laurels. There were about four lainmants for the honor of catching the greasy pig and owing to the fact it was decided to raffle the porker and give the proceeds to the Merville sufferers. Fifty dollars was realized from the raffle.

# The Treasure of the Incas-

N the extreme westernmost tip of the South American Continent, stands the little modern city of Talara. In front stretches the limitless blue of the Pacific; behind tower the majestic peaks of the Andes. All about lie the evidences of a dead civilization. Yet here, in a treeless and waterless land, amidst surroundings suggestive of the picturesque fictions of the Spanish Main, are to be seen and heard the mannerisms and idioms of old Ontario and the British Columbia Coast. Here are

to be seen, too, the little sump holes from which the ancient Incas took their precious bitumen-their rock-lined reservoirs and their crude refineries.

In a day that antedates American history, the high priests of this dead and departed race drew from these sources mysterious burning water to feed the flame of their altars. Foreign adventurers robbed the Incas of their treasures of gold and silver, but before the mystery of the burning water they paused amazed. The secret of its source lay hidden in the treasure vault of the rocks, safe from their acquisitive hands, and so they passed on, leaving the greatest treasure behind; and for four hundred years this land of shifting sands lay lifeless under the blazing southern skies.

TALARA-A Canadian City in Peru-the Chief Shipping Port of Petroleum for British Columbia.

Then came the Canadians. Armed with the knowledge and science of the moderns and with the initiative and will to succeed, they built where others had but despoiled. Canadian brains and genius have developed this ancient treasure of the Incas into one of the world's great oil fields. From this field, Imperial Oil Limited has brought a tremendous resource of raw material into the everyday use of modern commerce and industry. Ships carrying the house flag of Imperial Oil Limited sail five thousand miles of the blue Pacific to bring their cargoes of petroleum to British Columbia's shores.

Between British Columbia and South America a great trade is being built. Here, in our own province, a little army of highly-skilled and adequately-paid employees convert the crude oil of Peru into the hundred-and-one marketable products that meet British Columbia's requirements. The "gas" of the joy rider. the grease for the logger's skids, the distillate of the halibut hunter-all are products of this great international trade and this great home industry. Every self-interest of every citizen of British Columbia demands that this trade shall develop and this industry flourish. It means more dollars in circulation in our own home towns, less unemployment, more trade in every line.

The surest way to make British Columbia prosper is by patronizing Home Industry.

Shows Splendid Form; Tom Wellburn Surprised Everyone by Speed

George Silburn carried off the honors in the 440 yards last evening at the Victoria Amateur Swimming Club, this being the third race of a series of four to decide the club championship. He defeated Tom Welburn after a hard race. Both swimmers set a very strong pace, which caused others to drop out around the 300 mark. Silburn was generally conceded to win but the splendid showing of Welburn came as a surprise to many. This young swimmer has only this year left the ranks of the juniors and is rapidly rounding into one of the club's hus-kiest contenders for senior honors. Silburn on the other hand will probably annex some the provincial middle distance titles at the coming galas. Endowed with a style peculiarly his own he clips along at a fast pace and never slackens, finishing with a fast spurt which generally decides the race in his favor. Last night's result leaves the serles tied, Silburn and Wellburn having seven points each with J. Larsen and J. Clyde coming third and fourth respectively.

Novice Handicap.

respectively.

Novice Handicap.

The weekly novice handicap resulted in a win for Miss Marjorie Brackenridge, Milton Brown being second and Ernie Silburn third. Miss Brackenridge, who is a member of the Fidelis basketball team which won provincial honors last Winter, has only recently taken to the swimming game and is rapidly coming to the front in the ladies section of the club.

A life saving class has been started with Miss Gracie Wellburn as instructor. About eight members have been currelied as candidates for the Royal Lifesaving Society's awards. This is quite in keeping with the past record of the club, as in its tenyears' existence it has not missed sending up successful candidates each year. It is at present the only club in the city offiliated with the R. L. S. S. and its awagds in this useful and humane branch of swimming by far outnumber any other club in the Province.

The water polo team is in fine fettle for Saturday's game with the X. M. C. A. at the Elks' gala and is felly confident that it will knock the crown off the "Y" team's head.

Victoria Should Win Again.

Victoria is picked to have an easy win over the Five C's "B" at the Jublee grounds. Victoria is hitting along at a great clip at present and iast Saturday humbled the Incogs. The Five C's have only one win to their credit but are capable of a very fair game.

The third game will find the Incogs paired with the Albions, These teams met in the opening game of the season and the Incogs won. They are called to repeat to morrow. The Albions have turned in some splendid games this season but of late they have been in a rut find last Saturday the Army and Navy defeated them. Unless they show a complete reversal it is not expected that they will be able to cope with the batting and bowling strength of the Incogs. The Garrison hold the bye tomersow.

The Army and Navy will line up as follows: T. A. Darke (captain), A. Attwell. C. Askey, E. Butterworth, P. Welch, G. C. Hewitt, P. Burton, N. Bartlett, W. Baker, P. Oliver and W. C. Ellis.

Says They Will Drive Her Back to Norway: Admits Suzanne Is Best Player

New York, July 21.—Unconvinced that she is not a better tennis player than Mile. Suzanne Lengien, who defer feated her recently at Wimbledon in straight sets, Mrs. Molla B. Mallory, An erican champion, came home yesterday on the Homeric, vowing that pshe will go back to England next year "if I am alive" in the hope of a grain meeting the French star.

Mrs. Mallory confessed she was "in a temper" when newspaper men questioned her as the ship came up the bay. She at first declined to make may statement, declaring she had-been "risquoted so often" that "I am a fraid to open my mouth." Finally, however, at the repeated urging of Dean Mathey, American player, who accompanied her, Mrs. Mallory authorized the quotation, "The better player won."

She denied everything that has been published about the banter reported to have been exchanged between herself and Mile. Lengien after the match, denouncing these reports in "Lies, lies, lies."

"The newspapers are the vilest and circlest things in Amegica, and if they don't let me alone they will drive me out of tennis and back to Norway," she exclaimed.

At the solicitation of Mathey she withdrew her characterization of the American newspapers, and after he had dictated the phrase. "Mile. Lenging the had dictated the phrase." Mile. ### **CALM WEATHER** EASES FIRE MENACE

Week of calm weather has enabled fighters to get the boundaries of for-est fires surrounded and the situa-tion generally now looks less danger-ous and much more hopeful, P. Z. Caverhill, chief forester, announced

Premier Oliver and all the cabinet ministers including the Hon. A. M. Manson and the Hon. W. H. Sutherland, who have been in Northern British Columbia have now returned from the great Liberal picnic at Hastings Park, Vancouver, on Wednesday.

"The attendance at the picnic was far in excess of anything I had dreams of," the Premier said to-day. "The Federal mislisters all made a good impression."

The Premier confirmed the statement that the three ministers would be here Sunday afternoon.

Hon. W. R. Motherwell, Minister of Agriculture, will stay on the Island until Wednesday,
Hon. Charles Stewart, Minister of the Interior and Immigration, may have to return to the Mainland Monday night.

SHOP WORKERS OF THE RAILWAYS VOTE FOR STRIKE

Washington, July 21.-A settlement

Hon. D. D. McKenzie, Solicitor-General, will stay here for two days, as he intends to visit relatives up the Island.

Because Premier Oliver and cabinet ministers have all their time taken as a result of the visit of Dominion ministers. Ladysmith officials to-day telegraphed that they would postpone the opening of their new agricultural hall until ministers are able to perform the ceremony.

Mayor Adams of Calgary to-day telegraphed the Hon. A. M. Manson, Attorney-General and Minister of Labor, urging him to attend the unemployment conference at Calgary on August 4 and 5. He said that the Hon. James Murdock, Dominion Minister to be made at the meeting to forestall unemployment in Canada next Winter.

Premier Mackenzie King has called another conference on unemployment at Ottawa on September 5, to be attended by representatives of all provinces.

CRABS THAT BUILD HOUSES

bring them to your notice very quick-ly
What sort of creature do you imagine builds them? One would
naturally think that it might be a
molluse something like a limpet, but
really it is a crab, or arther one of
the crab's first cousins!

If you put a stone containing two
or three of the white cones into a
glass of sea-water, the occupiers will
soon make their appearance.
First a little lid opens at the top
of the shell; then a fringe of what
looks like 'feelers' makes its aplearance. Looking at these with a
magnifying glass, you will see that
they are really jointed legs, and that
there are six pairs of them, the same
number as crabs, lobsters, and cray-

Claim Liquor Money.

The Royal Jubilee Hospital applied for one-half the liquor profits assigned to Saanich, claiming this money on the strength of operation of the Isolation Hospital, located within the limits of Saanich. The request was tabled for a week, councillors agreeing that "the Health Centre is just as much a general hospital as is this Isolation hospital." The statement was made that the whole cost of operating the Isolation hospital was less than half the money claimed, and it was with an eye to Saanich liquor money that the Jubilee Hospital Board offered to take the Isolation Hospital over from Victoria.
